

THS Spring 2021 Assignment Schedule

Please complete the assigned reading, then submit questions and answers about the reading. These questions/answers should help other students learn from the reading assignment. For each assigned reading, you are required to post 3 different questions/answers. Do not use true/false questions.

Keep in mind: There will be two considerations for receiving a grade.

1. First, is the question/answer clearly communicated?
2. Second, does the question/answer reflect the reading material well?

(Please refer to the "Required Reading" tab in the main course page for some examples of a good post, and some examples of a bad post.)
